1.0 INTRODUCTION

This policy document is designed to ensure the effective and efficient handling of complaints by all staff within the NCB Financial Group Limited and its wholly owned subsidiaries, in Jamaica (the “NCB Group”). The procedures outlined are based on guidelines provided by the regulatory bodies including the Bank of Jamaica (BOJ) and Financial Services Commission (FSC), as well as standards documented in the organisation’s Customer Service Manual.

In accordance with the Banking Services (Deposit Taking Institutions) (Customer Related Matters) Code of Conduct 2016 (the “Code of Conduct”) and in compliance with generally acceptable complaints management standards, National Commercial Bank Jamaica Ltd. has established a centralised complaints handling team and implemented an Enterprise Complaints Management System, which is accessed via our CRM Dynamics Sales & Service Management System (SSMS) and framework to facilitate the logging, tracking and management of all complaints received across the NCB Group.

The Code of Conduct describes a complaint as an expression of protest, grievance, objection, discontent or dissatisfaction made by a complainant against a deposit taking institution or any agent thereof regarding a product or service of a deposit taking institution, or regarding the conduct of a deposit taking institution or agent thereof in contravention of the Code of Conduct before, at the time of, or after the acquisition of the product or service by the complainant, and which complaint is made in accordance with the procedures for handling customer complaints that are established by the deposit taking institution ¹

This policy document applies to all complaints received from customers irrespective of the channel used to register the complaint.

Compliance with this policy document is mandatory for all staff resident in Jamaica. Deviations from these guidelines shall result in disciplinary actions.²
